Whether you want to improve your everyday life, continue life-long learning or prepare for a life-changing experience, another language in your back pocket will get you on the right track. From introductory to higher levels, we have a range of language courses to suit you.

With an emphasis on building confidence in another language, you'll find it's just a short step to a wider world.

At all levels you'll participate in pair and group conversations to practise the language. Some homework may be suggested but will not be compulsory, although study between sessions is strongly recommended.

Learners whose progress is satisfactory may advance through each level. Tutors may advise those who have not yet met the stated course outcomes to repeat the course.

#### Which level is for you?

*If you're not sure of your level, please contact the CEC office on 04 385 8919.*

**Introductory 1** – if you have no prior knowledge of the language.

**Introductory 2** – if you've completed Introductory 1 recently or have equivalent knowledge, e.g. you may have picked up some "survival" language through travel.

**Introductory 3** – if you've completed Introductory 2 or equivalent. This level assumes confidence in using basic spoken language, e.g. greetings, directions, use of numbers, shopping and ordering food and drink.

**Introductory 4** – if you've completed Introductory 3 or equivalent.

**Intermediate levels** – if you've completed Introductory 4, or equivalent. These levels assume confidence in conversing in simple language in a range of everyday situations, as well as an understanding of basic grammatical structures.

**Progressivo** (previously known as Advanced) – if you've done up to Intermediate 2 or equivalent, have an understanding of more complex grammatical structures and can use these in spontaneous conversation.

**Languages for Travellers** – if you're intending to travel, or just want a taste of the language, these courses will help you understand others and make yourself understood at a basic level.
