Welcome

Kia ora

Welcome to the 2012 CEC programme. Why not enjoy yourself by taking a course at the end of your day or treat yourself with a weekend workshop?

A brand-new initiative is a series of cooking “taster” workshops, using Wellington High’s exciting new commercial kitchen. Choose from a wide range of two-hour courses - see page 19 for details.

For the first time, this year we are able to offer **‘Early Bird Discounts’ of 15%** (on all courses which are not Government-subsidised) if you enrol before **Sunday 15 January 2012**.

After this date, keep a close watch on our web site for **‘Special Discounts’ of 10%** becoming available from time to time on selected courses only. However, early enrolment guarantees you a place on a course!

Some free ESOL courses (and other lower-priced courses which are subsidised by Government) are now being offered for *NZ citizens and permanent residents*. (These courses are marked with [GS]). A condition of enrolment in **all subsidised courses is a minimum 80% attendance**.

Courses continue to be added to our programme as the year goes on, so keep an eye on the front page of our website www.cecwellington.ac.nz.

If you have ideas for courses not already on the programme or would like to offer a course with us, please get in touch.

Director

English Language (ESOL)

ESOL courses are subsidised for NZ citizens and permanent residents, who must attend a minimum of 80% of the sessions. Some places may be available for non-residents but an additional fee will need to be paid. Please check with the CEC office for more information.

In ESOL courses you will learn the English you need to live and work in New Zealand, to communicate with New Zealanders and gain skills for work and further study.

Courses are offered at the following levels:

Level 1 (Beginners) - those with little or no English.

Level 2 (Elementary) - those who can understand and use simple English in everyday situations.

Level 3 (Intermediate) - those who can usually understand native speakers and can make themselves understood in unfamiliar situations.

Level 4 (Upper Intermediate) - those who generally speak with confidence and accuracy but need to develop fluency and the use of idiomatic language.

Extension (Advanced) - those who are fluent in most contexts but who may need support in specific, more challenging, areas.

Please note that you do not automatically progress through the levels. Your tutor will advise when you are ready to move to the next level.

Languages

Welcome to our wide range of language courses, including indigenous NZ languages and foreign languages, at a variety of levels. The emphasis is on developing communicative competence and confidence, with the focus at introductory level on listening, speaking, signing (for NZ Sign Language) and the cultural environment. Understanding of structures underpinning the spoken (signed) language is developed at higher levels.

At all levels you will participate in pair and group conversations to practise the language. Some homework may be suggested but will not be compulsory, although study between sessions is recommended.

Learners whose progress is satisfactory may advance through each level. Tutors will advise those who have not made progress towards meeting the course objectives to repeat the course.

Which level is for you?

Languages for Travellers

Designed for those intending to travel, or who just want a taste of the language, these courses will help you understand others and make yourself understood at a basic level.

Introductory 1

For beginners who have no prior knowledge of the language.

Introductory 2

For those who have done Introductory 1 (16 hours) recently or have equivalent knowledge, e.g. who may have picked up some basic "survival" language through travel.

Introductory 3

For those who have done Introductory 2 or equivalent, this level assumes confidence in using basic spoken language, e.g. greetings, directions, use of numbers, shopping, ordering food and drink and talking about the weather.

Introductory 4

For those who have done Introductory 3 or equivalent.

Intermediate 1-4

Intermediate 1 is for those who have recently done Introductory 4 (64 hours) or equivalent and assumes confidence in conversing in simple language in a range of everyday situations, as well as an understanding of basic grammatical structures.

Further intermediate levels (16 hours each) will systematically deepen your understanding of the structure and usage of the language.

Advanced

For those who have done Intermediate 4 or equivalent (132 hours of course time), have an understanding of complex grammatical structures and can use these in spontaneous conversation. You will develop your speaking and listening skills and your cultural understanding.
